Teenagers are not interested in sports. Yes or No?

Alan, 15

Unfortunately, I think it's true. A lot of teenagers are interested in the e-sports, but these are really just computer games, not real sports. More and more teenagers stay at home and play on their computers rather than go out and do traditional sports.

Mark, 14

I'm not sure I agree with Alan. OK, we like computer games, but I think that we like going out even more. And when we go out, we often do sports. When I stay at home for too long, it's boring.

Teenagers don't help in the house. Yes or No?

Suzy, 12

I don't agree. Me and my friends have to help in the house very often. For example, I help my mum in the kitchen at weekends and I tidy my room twice a week. Some of my friends do chores at home every day! So, I don't think that's true at all.

David, 16

I think the same as Suzy. Me and my brother do a lot of things at home. He's good at cooking, so he often helps mum in the kitchen. I don't because I'm terrible in the kitchen. So, I take out the rubbish or vacuum the carpet.

Teenagers love fast food. Yes or No?

Eric, 13

Sure! You can see a lot of teenagers having hamburgers, chips or a pizza in fast food restaurants. You can see me there, too, at lunchtime! I don't eat lunch at school, so after classes I just get lunch from a kebab stall or eat a hamburger on my way home.
